1. INTRODUCTION

This document is for giving information about how to install and use the CTVIAT. The installation is consists of following steps:

- ✓ Preparing the required system environment
- ✓ Creating the database on the server
- ✓ Installing the CTVIAT

Moreover, the user manual part is divided into two main parts:

- ✓ Admin Operations
- ✓ Candidate Operations

2. INSTALLATION

2.1 Preparing the Required System Environment

Hardware Requirements:

- ✓ At least 256 MB display card with hardware acceleration
- ✓ 2 core CPU (recommended)
- ✓ 2 GB Ram Memory (recommended)
- ✓ Database server

Software Requirements:

- ✓ Windows Vista or Windows 7
- ✓ .NET 4.0 Client Profile
- ✓ WPF which comes in .NET 4.0 Client Profile
- ✓ Windows Speech API
- ✓ Microsoft SQL Server

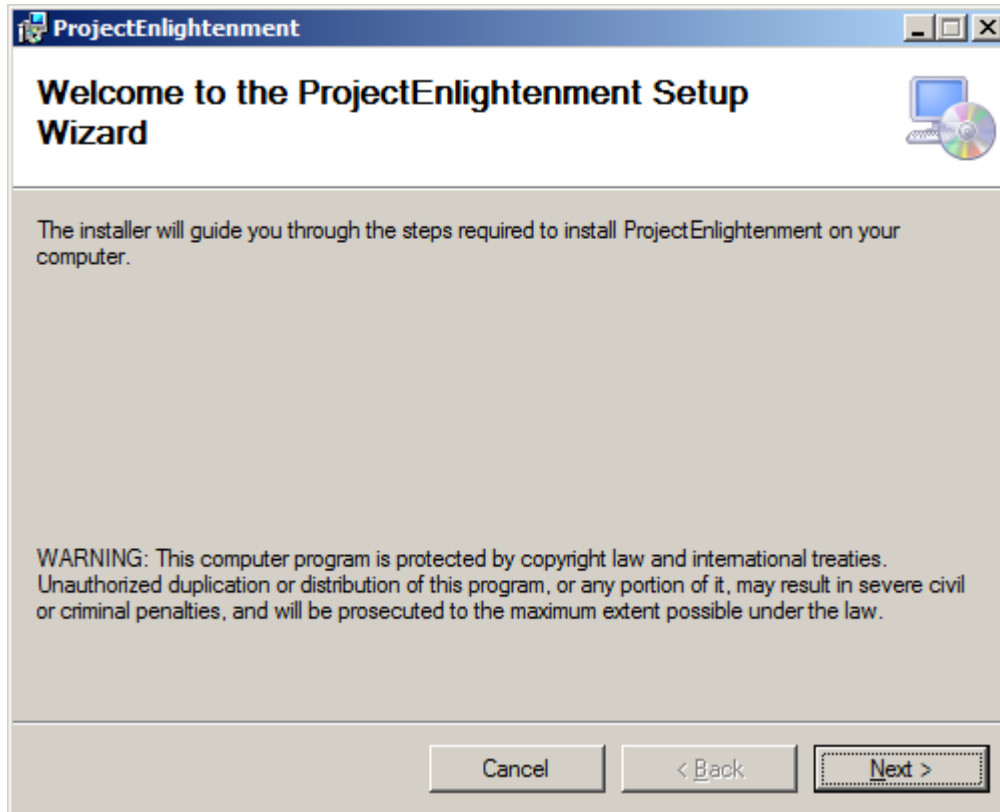

2.2 Creating the Database on the Server

The CTVIAT database must be created with provided script. Then, one login account must be matched with the created database. This login account will be used for client machines to connect the database server.

2.3 Installing the CTVIAT

Installation steps:

- ✓ Double click the “ProjectEnlightenmentInstaller.msi” to start installation
- ✓ Click Next Button in the following screen

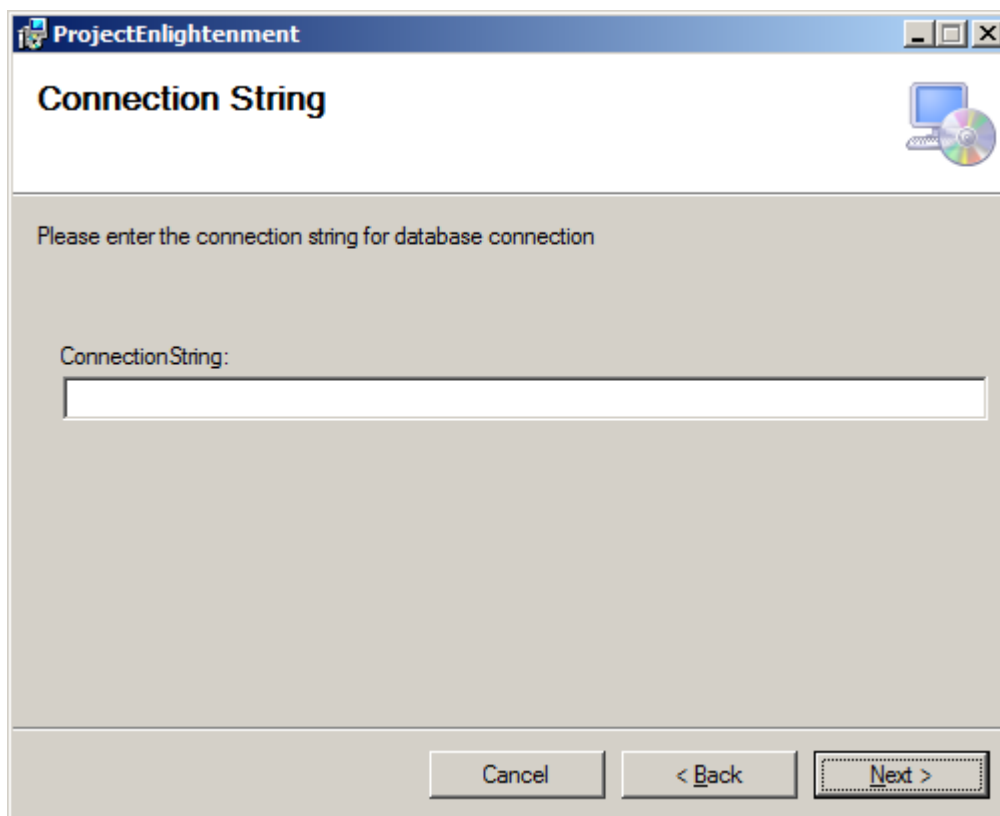

- ✓ Enter connection string that describes the database server like the following formats:

Data Source=*YourDatabaseServer*;Initial Catalog=*YourDatabaseName*;Integrated Security=False;User ID=*YourLoginAccount*;Password=*YourPassword*

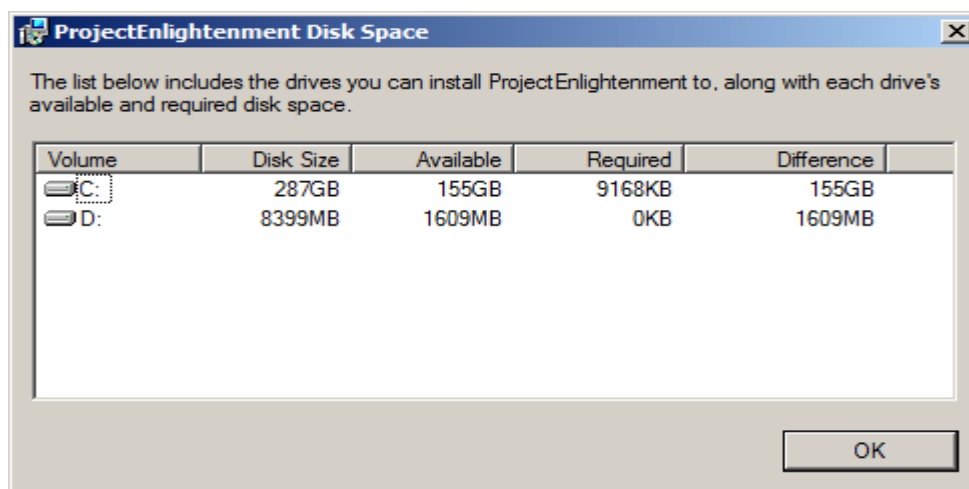

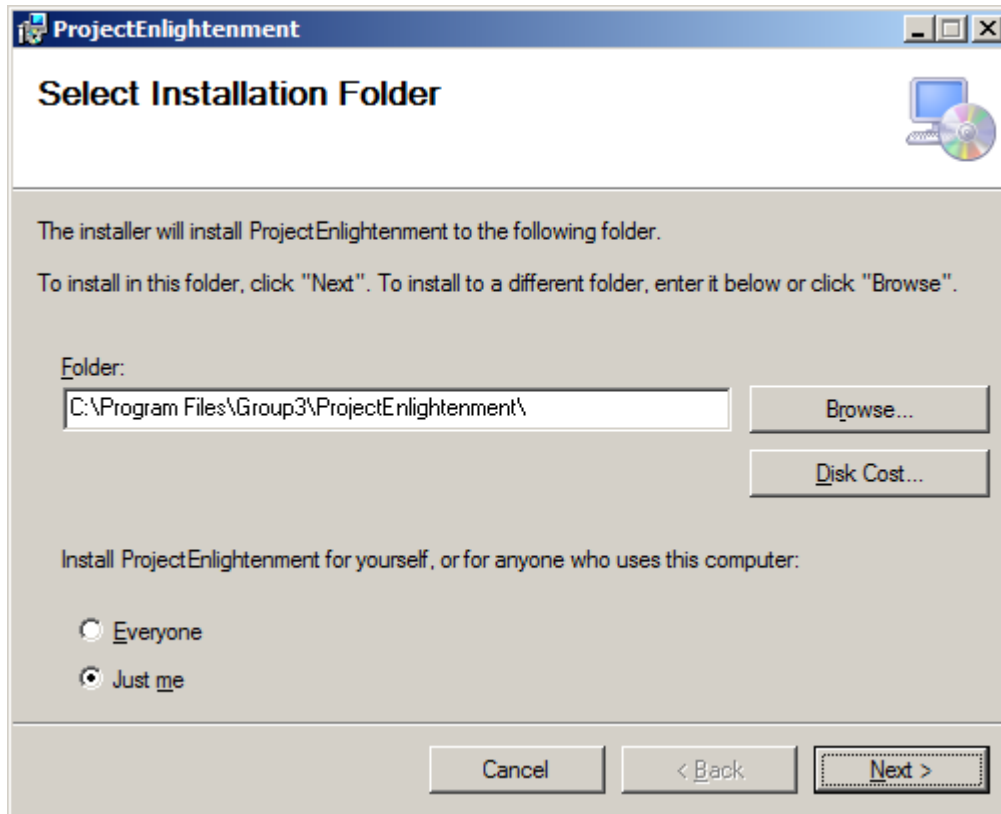

Data Source= *YourDatabaseServer*;Initial Catalog= *YourDatabaseName*;Integrated Security=True

- ✓ After entering the connection string click the “Next” button

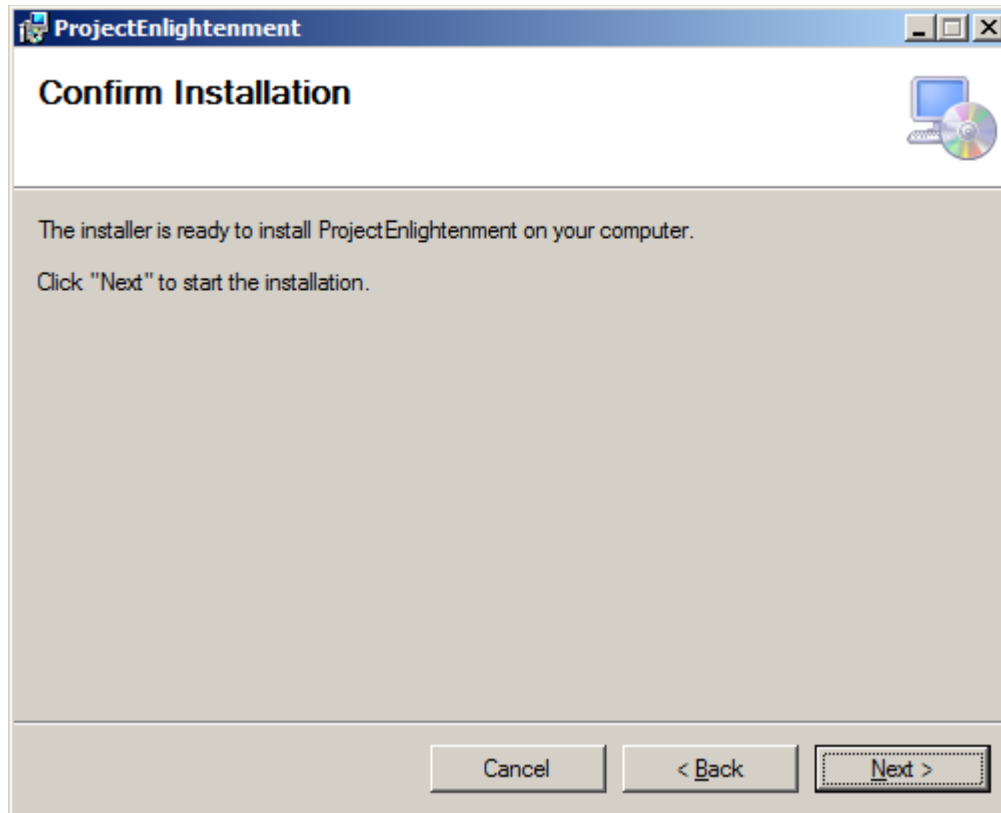

The screenshot shows a Windows-style dialog box titled "ProjectEnlightenment" with a sub-header "Connection String". The main area contains the instruction "Please enter the connection string for database connection" and a text input field labeled "ConnectionString:". At the bottom, there are three buttons: "Cancel", "< Back", and "Next >". The "Next >" button is highlighted with a dashed border, indicating it is the recommended action.

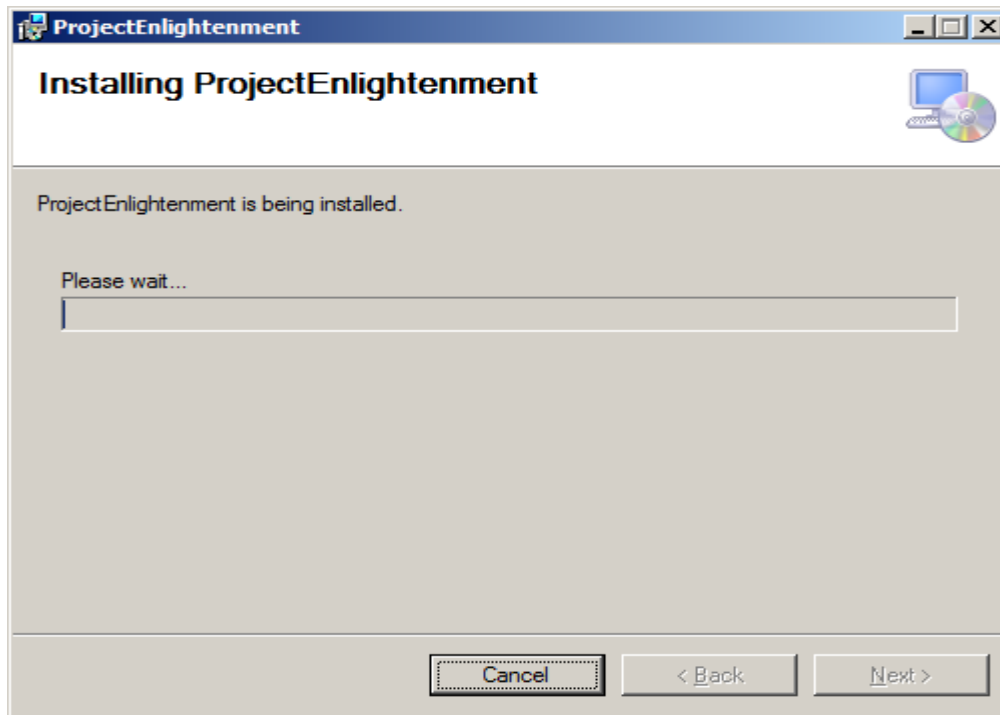

- ✓ Choose the application target installation directory and installation mode
- ✓ [Optional] You can learn disk space requirements by clicking the “Disk Cost” button
- ✓ After choosing the target folder, click the “Next ” button

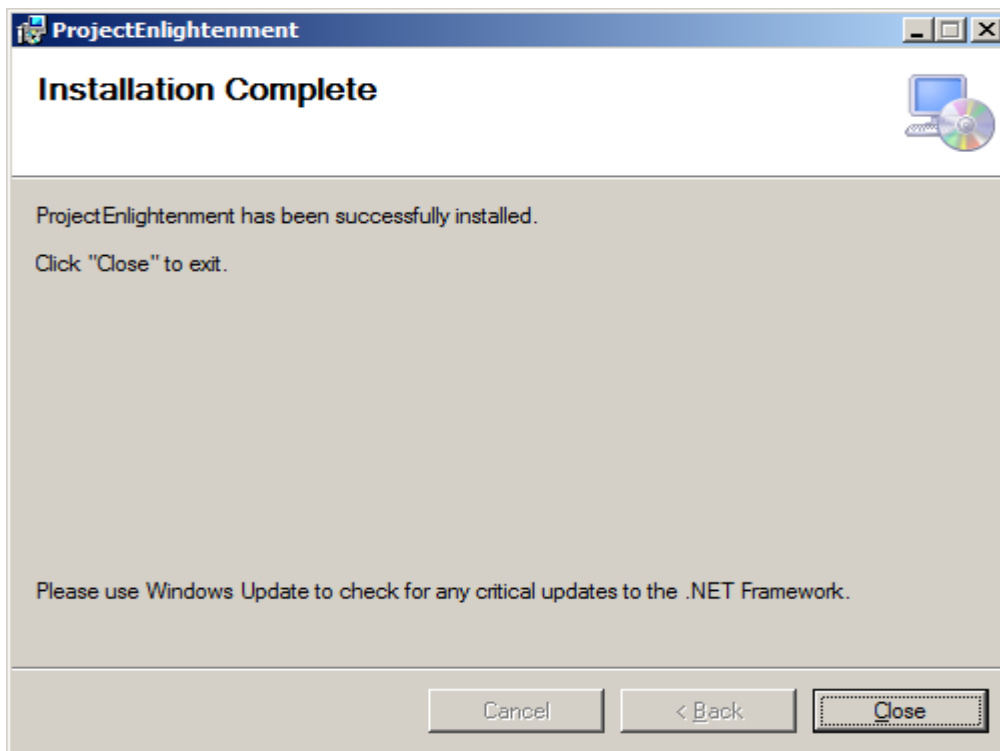

- ✓ Click the “Next” button to start the installation

- ✓ Installation is in progress

- ✓ Installation is completed, click the "Close" button to exit

3. ADMIN OPERATIONS

In this section, the operations that can be performed by the administrative user will be described.

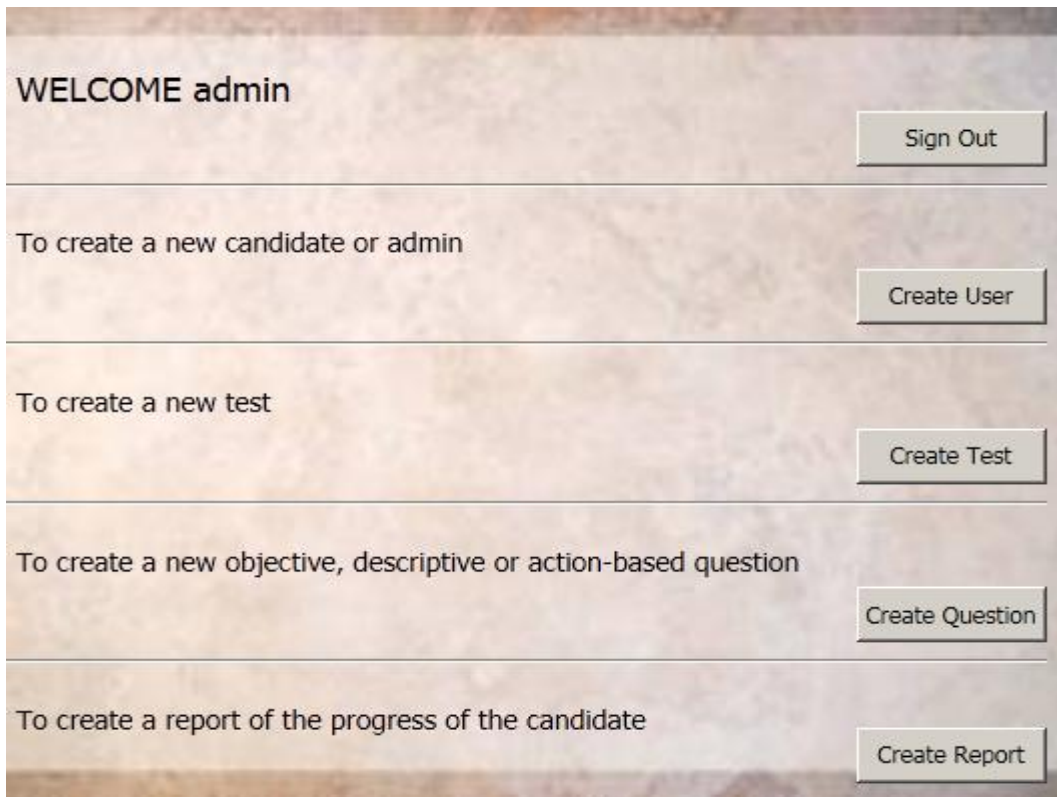

3.1 Login

- ✓ Enter username and password
- ✓ Click “Enter” button or press “Enter” key

The image shows a login window titled "CTVIAT Login". The window has a blue title bar with a close button. The main area features a graphic of a large, glowing yellow lightbulb in the center, surrounded by a circle of small, stylized human figures holding hands. Below the graphic, there are two input fields: "Username" and "Password". At the bottom left, the text "CTVIAT" is displayed. At the bottom right, there is a button labeled "Enter".

- ✓ After the successful login, you will see the following screen

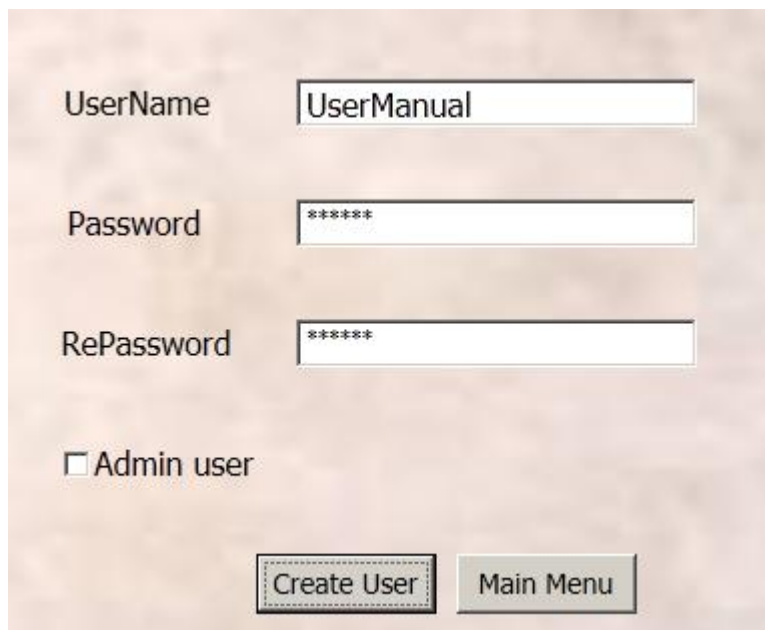

The screenshot shows a web interface for an administrator. At the top, it says "WELCOME admin" with a "Sign Out" button to the right. Below this, there are five horizontal sections, each with a description on the left and a corresponding button on the right:

- "To create a new candidate or admin" with a "Create User" button.
- "To create a new test" with a "Create Test" button.
- "To create a new objective, descriptive or action-based question" with a "Create Question" button.
- "To create a report of the progress of the candidate" with a "Create Report" button.

3.2 Create a User

- ✓ Provide a username which has not given before
- ✓ Provide a password and retype it
- ✓ Choose a user type – default is candidate
- ✓ Press "Create User" button

The screenshot shows a form titled "Create a User". It contains the following fields and controls:

- UserName:** A text input field containing the value "UserManual".
- Password:** A text input field containing six asterisks "*****".
- RePassword:** A text input field containing six asterisks "*****".
- Admin user:** A checkbox that is currently unchecked, followed by the text "Admin user".
- Buttons:** At the bottom, there are two buttons: "Create User" (which is highlighted with a dashed border) and "Main Menu".

3.3 Create a Question

- ✓ Choose the question type
- ✓ Choose the question subject
- ✓ Provide the question information
- ✓ Press the “Create Question” button

The interface is titled "Question Type and Subject" and contains two dropdown menus: "Select Question Type" and "Select Question Subject".

3.4 Create a Test

- ✓ Choose the questions type
- ✓ Choose the questions subject
- ✓ Choose the test subject
- ✓ Select the questions you want to add to the test
- ✓ To add selected question(s) to the test, click “→” button
- ✓ To remove select question(s) from the test, click “←” button
- ✓ To create the test , click the “Create Test” button

The screenshot shows a software window titled "Test Properties". At the top, there are three dropdown menus: "Select Question Type", "Select Question Subject", and "Select Test Subject". Below these is a section labeled "Questions of Test" which is divided into two large, empty rectangular panes. Between these panes, there are two small buttons: the top one is labeled "→" and the bottom one is labeled "←". At the bottom right of the window, there are two buttons: "Create Test" and "Main Menu".

3.5 Create a Report

- ✓ Search candidate usernames by providing the some part of the name
- ✓ Choose the candidate to report its progress
- ✓ Click the “Create Report” button
- ✓ In the pop-up window, choose a directory to save the created report

The screenshot shows a web application interface with a light blue header and a white main content area. At the top left, there is a search bar with the text "Search" and "Search Usernames:" followed by a text input field and a "Search" button. At the bottom right, there are two buttons: "Create Report" and "Main Menu".

4. CANDIDATE OPERATIONS

4.1 Login

- ✓ Enter username and password
- ✓ Click “Enter” button or press “Enter” key

4.2 Solve Test(s)

- ✓ Choose test subject (dialog or editing)
- ✓ Choose test freshness (old or new)
- ✓ Choose a test from the tests that are filtered according to selected properties
- ✓ Solve the test
- ✓ Listen the answers after finish
